EXPERIENCE

UI/UX Designer

August 2025 – Present

Unikwan UI/UX Design Agency

Immersive Display & AI Software · U.S. Enterprise Client

- Designed a spatial, layered interface for an AI-powered behavioral data visualization platform — floating panels, depth-based hierarchy, zoomable Action Genome timeline for dense time-based interaction data; delivered unified dark UI design language across all screens spanning Spatial UI, Experience Design, and Interaction Design.

Industrial SCADA Platform · Wind Energy Client

- Designing a wind farm monitoring and control dashboard (~25–30 screens); applied ISA-101 HMI standards, built intentional friction for critical turbine controls. Created atomic design system for the platform, and defined IA-first user flows with client approval gates before each high-fidelity phase.

AI-Powered Memory & Productivity App · SaaS Client

- Led end-to-end product design — brand identity, logo, design system, and 30+ screens covering onboarding, conversational AI, smart tagging, nudge notification flows, and empty states; conducted user interviews, personas, and journey mapping before mid-fidelity wireframing.

AI Technology Company · SaaS Client

- End-to-end single-page marketing website — brand logo, visual identity, IA, wireframes to high-fidelity execution; delivered a 12-slide investor pitch deck.

EdTech Mentorship Platform · U.S. Client

- Redesigned a 6-page website with responsive mobile versions; delivered client-approved, conversion-focused homepage and a 10–12 slide investor pitch deck.

UI/UX Design Intern

April 2025 – June 2025

Marvelloux Design Studio

EDUCATION

Diploma in UI/UX Design — Marvelloux Design Academy — 2024 – 2025

Master of Arts — University of Kerala — 2022 – 2024

Bachelor of Arts — University of Kerala — 2019 – 2022

SKILLS

Design User Interface Design · User Research · Wireframing & Prototyping · Journey Mapping · Information Architecture · Responsive & Adaptive Design · Atomic Design Systems · Brand Identity · Spatial UI · Accessibility & Inclusive Design
